**TECHNICAL DATA:**

- Maximum sampling coil diameter: 200 mm
- Maximum coil weight: 500 kg
- Maximum coil diameter: 400 mm
- Maximum unwind speed: 15 rpm
- Installed electrical power: 2,5 kW
DIGITAL PRINT INTRODUCTION MACHINE

Centering checking system thought coupled photocells.

Control panel touch screen, to manage the introduction operations.

Stable tensioning dancer system, also for very light fabrics, such as lycra (null weight dancer).

Arrangement for stapler, fixed on a sliding rail, to make the junction piece operation easier.
